VIRGINIA SOIL GROWS FINE ENGLISH WALNUTS

Satisfactory Results Reported by Farmer in Albemarie County, After

n Test of Several Years. To the Editor of The Times-Dispatch Sir .- To-day I sent you by parcel post some twigs of bearing English walnuts from the Romroy English walnuts from the Pomoroy English County, N. Y. This place has been in the Pemerey family about 105 years and the dwelling was built about 100 years ago It was my good fortune to visit this interesting place a few days ago, and to see the seven original English walnut trees planted by Mr. Norman Pemerey in 1876, after his visit to the centennial at Philadelphia. Mr. Pemeroy planted seven English walnuts and these are now seven trees, about thirty-eight years old, all very beautiful and all bearing English walnuts of the nnest flavor of any produced. There I saw trees of the second and third generation, all bearing the same kind of walnuts. I have some of the Pemorov English walnut trees ing on my farm in All delta near Charlottesville. They all the winter fine and are growing patiently, and I have ordered more that trees to be planted this fall, heve we have fine soil and climate English walnuts and probably cans in Virginia, it was my please to meet four sons of Mr. Norman moroy, and they are all fine fellows, of all engaged in growing the Panne. and all engaged in growing the Pomorov English walnuts in different parts of the country. Mr. Albert C. Pomorov, of Lockport, N. Y. has probably done more than any one else to bring this hardy English male in the country. English walnut to the front. Mr. E. C. Pomoroy has a sixteennere Pomoroy English walnut orchard
at New Milford, Coun. Let us plant
Pomoroy English walnut trees and
pecan trees on our lawns, in our back
yards and on our farms. It has been a great lesson for us to see what one man did with seven walnuts.

JOHN S. PARRISH

September 9, 1915.

BRIEF NOTES THOUGHT OUT BY THE WAYSIDE

To reach a mountain top, the num-ber of times we fall does not count: it is the picking up and going on that gains the pinnacle.

GOOD HOME CONDITIONS SUSTAINING INFLUENCE

[Special to The Times-Dispatch.]
[CHICAGO, September 12.—After so long a time the wheat trade at Chicago has commenced to take stock in the many reports of damaged wheat in the Southwest. Millers and exporters already have made large purchases of spring wheat, both in our own Northwest and in Canada, which will be used by millers for blending purposes and by exporters for shipment abroad. Several larger concerns in Chicago which have sold wheat to exporting countries for September and October delivery, have made purchases of spring dilvery, have made purchases of spring wheat of the country solution was restrained during the past week by the desire to await the clearing up of this country's diplomatic plants of the foreign exchange market. Favorable news of home conditions was a sustaining influence. The torpedoing of the Hesperlan, the demand for the recall of the Austro-Hungarlan ambassador, and the German government's claim of justification for torpedoing the Arabic week by the desire to await the clearing up of this country's diplomatic plants of the foreign exchange market. Favorable news of home conditions was restrained during the past week by the desire to await the clearing up of this country's diplomatic plants of the foreign exchange market. Favorable news of them clearly of the come conditions was restrained during the past week by the desire to await the clearing up of this country's diplomatic plants of the foreign exchange market. Favorable news of the foreign exchange market. Favorable news of the war. A definite settlement of t with the central European belligerents

There is a great deal of good wheat
in the States known as the winter
wheat belt.

The Canadian farmers, as well as the
producers of spring wheat in our own
country, will benefit because of the
heavy rains and the consequent damage
to wheat in the Southwest, and it is
more than likely they will be enabled
to get better prices than they could
otherwise have obtained.

The United States, as well as Canada, has raised big crops of spring
wheat, and it is said nearly all the
farmers in the latter country will be
willing to accept present prices for
their grain. It is also said there is a
likelihood of Great Britain taking over
the entire exportable surplus of Canada at prices satisfactory to the
